

E. A. CONSTRUCTORS AND CONSTRUCTION MANAGERS

ENDORSED BY KUHNS BROS. LOG HOMES

E.A. Constructors and Construction Managers offers a team of experts with over 100 years of combined construction management experience at the senior level of management.

E.A. Constructors and Construction Managers are committed to offering the most complete construction services tailored to individual buyer's needs. Servicing residential and commercial clients in Log, Timber Frame, Conventional Frame, Panelized and Steel Frame construction. E.A. Constructors and Construction Managers is led by a seasoned staff of Upper Management, Project Coordinators and Field Supervisors focused on achieving the corporation's ultimate goal of absolute client satisfaction.

Sub-contractors utilized by E.A. Constructors and Construction Managers undergo a detailed process of insurance and reference qualifications prior to contracting. Whenever possible, sub-contractors are recruited within a reasonable proximity to the site location in an effort to reduce costs and increase effectiveness. A list of qualified contractors will be made available to Advisory Construction Management clients.

As an extension of the construction management services, an in-house architectural and engineering support staff is available to service Design/Build project needs.

Preferred partner supplier relationships have been negotiated with leading national manufacturers. These manufacturers' product offerings include appliances, lighting, plumbing, stone, heavy timbers, home furnishings and much more.

E. A. CONSTRUCTORS AND CONSTRUCTION MANAGERS

PROFESSIONAL CONSTRUCTION MANAGEMENT SERVICES

THE RIGHT CHOICE

OPEN BOOK POLICY - E.A. Constructors and Construction Managers are innovative in offering buyers the opportunity to view the financial management books for every aspect of their entire project. Service fees are presented independent from project costs affording E.A. C & CM and the home buyer to work in tandem to manage and control complete job costing.

The Kuhns family developed E.A. Constructors and Construction Managers to fill a monumental void for quality, managed construction services in the log home industry. It didn't take long for us to realize that the void for managed construction services expanded far beyond the log home industry into conventional, panelized and steel framed construction as well.

We're proud to have searched out and assembled a recognized team of experts to head E.A. C & CM and lead the corporation in the same honest, straight-forward business practices that have distinguished our family's corporations for decades.

Through our synergistic family of corporations we've helped thousands of families recognize their home buying dreams and we're confident that we can do the same for you.

Tom Kuhns
