

TURN-KEY CONSTRUCTION MANAGEMENT

Contract E.A. Constructors and Construction Managers
to manage and control your construction project for you.

Turn-Key Construction Management is a complete service offering home buyers the peace of mind that their entire project is being managed by a professional team of seasoned Project Coordinators and Field Supervisors. The complicated process of new home construction is managed seamlessly while budgets are adhered to and time lines are met.

The required home buyer participation through the Turn-Key Construction Management service is minimal. The system employed by E.A. Constructors and Construction Managers is clearly defined and structured to maximize the homeowners efforts while minimizing the time necessary to do so. Although participation requirements are minimal, the homeowner is invited to participate in a fashion that supports their individual interests.

TURN-KEY CONSTRUCTION MANAGEMENT

- E.A. Constructors and Construction Management services are all inclusive, encompassing all aspects of your construction project including . . .
 - Excavation - Material Selections - HVAC - Cabinets
