Kuhns Bros. Releases Innovative Planning Kit

Lewisburg, PA – Designing and preparing for a dream log home is now easier than ever with Kuhns Bros. Log Homes' new ***Planning Kit***. Now, consumers can custom design their new log home with the kit's interactive "**Signature Designs**" CD. Consumers can enjoy a 3-D virtual walk-through and can completely custom design their own home by choosing from hundreds of design modules, such as: window layouts, log profiles, and roof options. Add a wing, garage, deck, porch and more; or change the color of shingles, stain, and stone. The graphics are incredible and the possibilities are endless. A connection to the Internet allows for instant, real-time pricing. The CD also includes an automated "Cost Tracker" program designed to help monitor all bids, estimates, and final costs associated with building a new log home. These innovative features have never before been available to log home consumers.

A full-colored portfolio compiles nearly 50 pages of beautiful photographs and information regarding the value of kiln-dried logs, top-of-the-line components, package options and more. A 15-minute DVD highlights the "Cornerstones" of the business and includes a tour of Kuhns Bros. manufacturing facility, customer testimonials and more.

Tom Kuhns, President of Kuhns Bros. Log Homes, says, "We are ecstatic to be offering these innovative features to all log home consumers. With our new kit, it's now easier and faster than ever to make log home dreams reality. Our network of over 100 sales representatives, located throughout the country, stands ready to assist customers in every step of the process."

Kuhns Bros. Log Homes, Inc. remains a leading manufacturer in the log home industry. The company has been manufacturing kiln-dried log homes for over 20 years, annually delivering more than 350 homes across the country.
