

Kuhns Bros.
LOG HOMES INCORPORATED
®

BENEFIT FROM OUR EXPERIENCE.

The process can be long and sometimes complex, but we've helped thousands of families make their new log home exactly what they dreamed it would be. Our team will do the same for you.

The difference is in our team. It's the industry's most complete, most qualified group of experts who share and support the honest, straightforward work ethic that has sustained the Kuhns Bros. Family of Companies for more than 60 years.

Our team of experts covers the complete range of services to assist you in realizing your log home dreams.

Integrity – Quality – Value – Service – Innovation

It must be Kuhns Bros.

KUHNS BROS. TEAM OF EXPERTS

SALES NETWORK

Kuhns Bros. is supported by a sales network of more than one hundred Sales Representatives throughout the United States and internationally. Our sales staff consists of professionals with careers in related fields such as banking, construction, real estate, and home design. Most began their relationship with Kuhns Bros. as one of our buyers, understanding first-hand what sets the Kuhns family, their employees, and their products apart from other log home manufacturers.

One common attribute our Sales Representatives each share is their burning desire to be successful supported by their willingness to work hard in achieving that goal. They also enjoy sharing the dream of log home living with their customers, and they pride themselves in operating their business in a professional manner, servicing each of their customers in a fair and ethical way.

Todd & Betty Fisher

"For over 20 years I've considered myself fortunate to be representing the finest log home products and services backed by the greatest support team. As a builder, getting things right the first time is very important. Even more important to me is the level of trust and cooperation the company shows when working with me through challenging situations that sometimes happen on the job site. They're top notch!"

DESIGN EXPERTS

Kuhns Bros. operates a 12,000 square foot dedicated design facility located in Milton, Pennsylvania. Our design team offers cutting-edge services to support our specialization in custom log home design.

Regional design and engineering teams have been established to focus on the ever-changing specialized requirements that vary for each region of the United States. These regional teams are paired with our Regional Sales Managers and individual Sales Representatives to offer our customers the most-up-to-date, regionally specific services available.

For added expert service, we have strategically partnered with architects and engineers across the United States and abroad. This enables us to meet specialized requirements for coastal regions, high-altitude regions, seismic zones, and other unique structural and geographic conditions.

KUHNS BROS. ENTERPRISE

Kuhns Bros. Enterprise is an ongoing evolution, beginning with Kuhns Bros. Lumber Company in 1962.

Prompted by the success of their first company and understanding the benefits of economies of scale, the Kuhns family began establishing mutually advantageous, synergistic companies. The first was Kuhns Bros.

Log Homes in 1983, followed by Country Log Cabins in 1996, American Heritage Crafters in 2003, T&T Realty Acquisitions, also in 2003, and Preferred Capital Mortgage in 2006.

KUHNS BROS. TEAM OF EXPERTS

MANUFACTURING AND PRODUCTION

Kuhns Bros.' expertise in manufacturing begins with its state-of-the-art kiln-drying procedures that have been fine-tuned through numerous joint research projects conducted with independent researchers including Penn State University's Department of Forestry. Continuing this commitment to quality, Kuhns Bros. uses only heart-cut logs to ensure a true and uniform product. After profile milling, logs and timbers are graded by certified inspectors in accordance with Log Homes Council standards prior to being carefully selected for the cut line.

Each log is predrilled and counter-bored for proper placement of lag bolts, making construction of the walls easy. Dado cuts are made on the log ends, making tight and secure corner intersections, as precision cutting is paramount to an energy-efficient home. Each bundle of logs is packaged, wrapped, labeled, and bound for protection from the weather when delivered to the construction site, which is a big plus for the builders and a money saver for the homeowners.

PRODUCTS AND PARTNERS

We have partnered with top-of-the-line, national manufacturers such as Andersen® and Therma-Tru® premium windows and doors, Sika® sealants, Kwikset® hardware, RMAX® insulations, TAMKO® shingles, and others. These products superbly complement our superior log and timber package to offer our customers the finest overall quality components in their complete log home package.

Our experienced shipping department will arrange for your first truck to arrive promptly at 8 a.m. on the pre-selected delivery day, with subsequent trucks arriving in two-hour intervals. Split delivery options are also available.

Our family of experts is committed to providing our customers with the best possible quality backed and supported by the best possible services.

Kuhns Bros.' corporate headquarters is nestled in the heart of Central Pennsylvania, encompassing more than 135 acres and staffing more than 200 employees.
